BILLING NOTES — ITEMS TO VERIFY BEFORE SUBMISSION

- Modifier GT (Line 1) — Telehealth platform documentation required**
ASES and Plan Vital require the telehealth platform name (Doxy.me) and patient location to be documented in the claim record. Missing this is a top denial reason.
- Modifier 25 (Line 2) — E&M must be separate and distinct from psychotherapy**
The progress note documents a separate medically necessary encounter. Confirm this is explicitly stated on the claim before submitting to avoid Plan Vital denial.
- X Authorization # PENDING — Do NOT submit without a valid authorization number**
Submitting without prior authorization is the #1 denial reason for ASES behavioral health claims. Obtain the auth number from the payer portal and enter it on the claim first.
